Critical Illness Limitations and Exclusions

A pre-existing condition is any Illness or Injury for which You received medical treatment for, advice was rendered, prescribed or recommended within 3 months prior to the effective date of Your coverage. A pre-existing condition is not covered within the first 6 months of coverage.

Critical Illness benefits are not payable for a loss which is caused by a suicide or attempted suicide.

Covered Conditions must be separated by the period indicated in the Plan Design Summary to be eligible for benefits.

An insured cannot receive Critical Illness benefits for the same covered condition more than once, unless the Recurrence Benefit is selected.

Employees may not be insured as both an employee and a spouse/dependent. If both parents are employees, only one may elect the Critical Illness plan on dependent children.

If an Illness or Injury cause more than one Covered Condition to occur, benefits are payable under the Covered Condition with the greatest benefit level percentage and would be payable once.

Critical Illness benefits are not payable for a Covered Condition if it results from: (a) the misuse of alcohol or taking of drugs (other than under the direction of a Physician, who is neither the Employee, the Employee's family, or the Employee's business associate); (b) Injury received during active participation in a riot, strike or civil commotion, or any act incidental thereto; or (c) participation or attempt to participate in any illegal activity.
